Simply Sizing Your Simply Slippers

This simple slipper pattern was created to accommodate a broad range of sizes. When created with worsted weight yarn, the slippers have a self-customizing quality. When the slippers are initially put on, they should feel quite snug. After wearing them for about an hour, they will permanently take on the shape of the wearers foot.

The customized shaping will even last through machine washing in cold or warm water.

If your slippers are being made for a size smaller than US Women's size 6, please eliminate the last 2 rows of hdc's.

If your slippers are being made for a size larger than US Women's size 11, please work 2 additional rows of hdc's before finishing off, and weaving in your ends.

Most importantly,
-Enjoy!
